

# NURTURING AN ECOSYSTEM OF YOUTH ORGANISATIONS

## Social entrepreneurs in Uttar Pradesh.

We started this social enterprise **1 year** back with so much passion and commitment but we seem to be struggling to sustain it.

Are we cut out for this? Can our passions really be our livelihoods? Maybe we are too young to start our own enterprises.

We don't have enough money for salaries, no mentor to guide us and we don't know if we are making any difference on the ground.

Should we look at some opportunities for our growth.. What do you think?

## Social entrepreneurs in Telangana.

Our organization has been working for the last **5 years** but are we going in the right direction?

But as founders, we are doing everything. What more can we do?

We need to invest in our organisation's sustainability. I have heard about an interesting programme for organisation development run by Pravah. Why don't we speak with them?

Hi. We wanted to know more about the OD intervention.

You mean "**Saanstha**"?

**SAANSTHA?**

Interesting name!

It literally translates into 'saans' and 'sanstha'.
